

The Berlin Middle School Afterschool Program had a family event on November 22, 2017. The students built two cars with their families and we raced the cars. We had cars made out of recycled materials and they were powered by elastics and we had cars made out of wood. The wooden cars needed to gain momentum as they traveled down a ramp (track). We gave prizes for creativity and longest distance. We had four families attend this event.

Afterschool Programs

December

Hello Parents, Teachers & Friends!

During the month of December our youth will be using their cooking club to make snacks to share with their family members on December 14th at our Family Event. We will have a Hot Cocoa Bar and some holiday games to play. We hope to see you at our event. We will be involved in a community service activity at Saint Barnabas Church on a Saturday in December (once we receive the date we will share the information with our families) we will need 5 students to volunteer to help with the Community Supper. We will also be making Carnival Games for a family event for Brown School Afterschool Program to use in January.

We will have three student facilitated clubs this month. These clubs give students an opportunity to use their leadership skills by planning and facilitating a club of their choice. We will offer the additional clubs: Art club, Lego club, Craft club, and Physical Activity club. We will also have a Fun Snow Day and a Movie Day.
